RSAConference | Where the world talks security

Andrew Lewman

CRO, Farsight Security, Inc.

Andrew has more than 30 years of global technology experience in a variety of domains, including information security, systems administration, and data management. His interest lies in the intersection of technology and humans. He's been a top executive at many high-growth start-up companies, such as TechTarget, The Tor Project, and now Farsight Security. He's an advisor with military and intelligence agencies in the US and its Allies, most recently with the NSA, DHS, and Thorn Foundation. He's a speaker and frequent media contact for conferences, invited speeches, with extensive television, written, and Internet-media press experience. Publications with EMCDDA and Fordham University Press. Andrew's most recent publication is with the European Monitoring Center for Drugs and Drug Addiction on Tor and Links with Cryptomarkets. He's the Treasurer for Emerge helping to stop domestic violence through counseling abusers, President of the Norfolk Aggie Parent Network, and Chairman of Each One Teach One providing economic opportunity for women and girls through technology.
